

UNMATCHED FLEXIBILITY

SMART SCALABILITY TO GROW WITH YOUR NEEDS

Only the Poweredge M600 Blade System provides complete, scale on-demand switch designs:

- Features Intel® Xeon® processor X5460
- Additional I/O slots and switch options give you the flexibility needed to meet increasing demands for I/O connectivity
- Dell's FlexIO modular switch technology enables easy scaling to provide on demand stacking and uplink scalability

Blade technology designed to grow with your business.
