Open House Program on Facilitating Learning for Project Management (PMP)

January 2009

Dubai

Program Overview

This program is designed to make participants comfortable and confident by demonstrating and illustrating the integrated approach to project management as described in PMBOK®. Participants are led systematically to map PMBOK® to the existing practices that they follow. The program also discusses the best practices and action plan needed to manage projects effectively. Comprehensive sections including sample questions on each knowledge area and planning processes are covered. Discussions on other matters of PMP® exam, assignments, homework and plan for post course studies for PMP®.

This Program fulfils the PMI® requirement of **35 contact hours** which a PMP® aspirant is to have, before applying for the PMP® Certification examination.

Program Takeaways'

After the completion of the Program, the participants would be able to:

- Earn **35 Professional Development Units (PDU)**s from PMI®, USA
- Learn about the core project management processes of Scope, Time and Cost
- Learn about facilitating processes of Quality, Human Resources, Communication, Risk and Procurement
- Learn about Project Integration Management and Professional Responsibilities of a Project Manager
- Understand the Project Management Concepts as per **PM Body of Knowledge (PMBOK®)**s
- Learn through **interactive, practical illustrations** and experience sharing session
- Ascertain your **level of readiness by taking tests** on various knowledge areas
